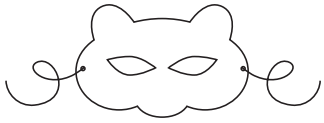
The Metropolitan Opera

Enjoy these masks inspired by Mozart's *The Magic Flute*. We invite you to make this craft your own and wear it to the Met. Share your creativity with us by posting a picture in your mask and tagging **@metopera**.

DIRECTIONS

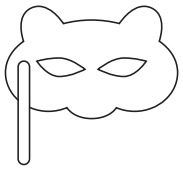
1. Print your mask.
2. Decorate your mask to show your magical personality.
3. Cut out your mask along the dotted lines. Don't forget the eyes!

For a tie-on mask



1. Punch a small hole on each edge of your mask. You can use a hole punch or gently push a sharpened pencil through the paper.
2. Fasten a piece of string or ribbon to each hole.
3. Hold the mask to your face and tie the two pieces of string together behind your head.

For a hand-held mask



1. Glue your mask onto a piece of cardboard or a cereal box.
2. Cut away the extra cardboard so only your mask remains.
3. Fasten a popsicle or paint stick to one side of your mask with tape or glue (remember to let it dry!).
